2.1 The Order constitutes an offer by you to purchase Services in accordance with these Conditions. Please ensure that you read these Conditions carefully, and check that the details on the Order and in these Conditions are complete and accurate, before you sign and submit the Order. If you think that there is a mistake in the Order or Specification or require any changes to be made prior to Us providing the Services to you please contact Us to discuss.

2.2 The receipt of your Direct Debit Mandate form or written acceptance of the Order by way of a reply to the email 'Your Broadband Order' will be deemed as an instruction for us to proceed. When you sign and submit the Order to Us, this does not mean We have accepted your order for the Services. The Order shall only be deemed to be accepted when We issue written acceptance of the Order at which point and on which date the Contract shall come into existence (**Contract Commencement Date**). If We are unable to supply you with the Services, We will inform you of this in writing and We will not process your Order.

2.3 The Contract constitutes the entire agreement between the parties and you acknowledge in agreeing to the Condition to have not relied on any statement, promise, representation, assurance or warranty made or given by Us or on Our behalf which is not set out in the Contract.

2.4 Any descriptive matter or advertising issued by Us, and any descriptions contained in Our catalogues or brochures or on Our website, are issued or published for the sole purpose of giving an approximate idea of the Services described in them. They shall not form part of the Contract or have any contractual force.

3.2 However, if you cancel an Order for Services under Condition 3.1 and We have already started work on your Order by that time, you will pay Us any costs We reasonably incurred in starting to fulfil the Order, and this charge will be deducted from any refund that is due to you or, if no refund is due to you, invoiced to you. We will tell you what these costs are when you contact Us. However, where you have cancelled an Order because of Our failure to comply with these Terms (except where We have been affected by an Event Outside Our Control), you do not have to make any payment to Us.

3.3 Unfortunately, if you cancel an Order under Condition 3.1 and We have already despatched your Equipment, We will not be able to cancel your Order until it is delivered. In this case, if you return the Equipment to Us, We will have to charge you the cost of collection or you will have to pay the cost of returning the Equipment back to Us. 7. PROFESSIONAL WI-FI INSTALLATION

If you request us to quote for and undertake a Professional Wi-Fi Installation on your Property, this involves one of our team going to site to complete engineering work. On a standard Property this involves the professional fitting of Wi-Fi Equipment.

Where we receive Professional Wi-Fi Installation requests for large HMOs and flats, the Equipment, labour and materials required can be more extensive to achieve a professional Wi-Fi set-up.

If we recommend a Professional Wi-Fi Installation on a Property and the Landlord chooses to go ahead without a Professional Wi-Fi Installation or use his/her own contractors to fit the Equipment we have supplied, we cannot be held responsible for any Wi-Fi deadzones as we have not fitted and tested the Equipment ourselves.

The Charges for Professional Wi-Fi Installations are based on labour, materials and additional hardware. This will be quoted separately to our standard products and services.

Where we complete a Professional Wi-Fi Installation, for the length of the Contract you have with us, we will provide a Guarantee against the BT Charges outlined in the Variable Charge Tables in the Schedule hereto with the exception of the Cessation Charge if the connection is cancelled at the end of the Contract. We will not provide a guarantee for missed appointments and the other scenarios outlined in points a. to l. listed under the Variable Charge Tables.

If you are contracting with us as a Letting Agent and you order a Professional Wi-Fi Installation, it's your responsibility to ensure that the Landlord of the property is aware of and happy with the engineering work taking place.

8. YOUR OBLIGATIONS

8.1 In the event that there is an existing supplier providing broadband services to a Property, you shall contact said supplier to serve notice prior to the commencement of the Services.

- 8.2 It is the responsibility of your Tenant(s) to have devices that have the minimum specification required to access the Services at a Property. It's your responsibility to ensure that the tenant(s) take responsibility for this by reading and signing the Tenancy Internet Policy that we provide for your tenancy agreement or licence. We will send this to you as we process your Order. For the avoidance of doubt, computer equipment shall not form part of the Equipment provided.
- 8.3 If the hardware is being delivered directly to the Property you shall ensure that you, your representative or a Tenant are available to receive the hardware when it is delivered. Your chosen contact for this must be communicated to us when we are processing your order.
- 8.4 It is your responsibility to monitor the condition of the Equipment through your inspections on the property and to identify and raise any issues. You are responsible for ensuring the Equipment is PAT Tested at regular intervals in line with industry requirements. It's acceptable to delegate this responsibility to a Letting Agent.
- 8.5 You shall ensure that you, your representative or a Tenant are available to enable Our engineer to gain access to a Property at the time agreed for a scheduled visit. Your chosen contact for this must be communicated to us when we are processing your order.
- 8.6 You shall ensure that the terms of the Order and any information provided in the Specification are complete and accurate.
- 8.7 You shall co-operate with Us in all matters relating to the Services.
- 8.8 You shall provide the Supplier, its employees, agents, consultants and subcontractors, with access to the Property.
- 8.9 You shall provide Us with such information and materials as We may reasonably require in order to supply the Services, and ensure that such information is accurate in all material respects.
- 8.10 You shall ensure that a Property is prepared for the supply of the Services subject to those obligations identified as being Ours.
- 8.11 You shall obtain and maintain all necessary licences, permissions and consents which may be required before the date on which the Services are to start.
- 8.12 You shall keep and maintain the Equipment at a Property in safe custody at its own risk, maintain the Equipment in good condition, and not use the Equipment other

than in accordance with Our written instructions or authorisation. Where we have completed a Professional Wi-Fi Installation (section 7) we will have taken provision to ensure the equipment is safe and protected. If the tenant(s) damage the Equipment during the tenancy then we will replace the Equipment but will need to charge you for a replacement. The tenants' responsibilities regarding the Equipment are clearly stated in the Tenancy Internet Policy but it is your responsibility to recoup the cost of the replacement through the standard industry deposit protection processes or through the courts.

- 8.13 It's the responsibility of the tenant(s) to ensure that they use the Services for their own personal use and enjoyment and that the Services are not being used for any commercial purpose. It's your responsibility to ensure that the tenant(s) take responsibility for this by reading and signing the Tenancy Internet Policy that we provide for your tenancy agreement or licence. We will send this to you as we process your Order.
- 8.14 You shall ensure that all users of the Services are doing so in accordance with Our Acceptable Usage Policy as set in Condition 15.3 by applying it to the tenancy agreement or licence as we instruct.
- 8.15 Should We provide you with a phone number, you shall ensure that:
- 8.15.1 the number is not advertised in or on a BT phone box;
 - 8.15.2 Having acknowledged that ownership of the number does not pass to you, you shall not allow the number to transfer to a third party or endeavour to do so. It is acceptable to make tenants aware of what the phone number is in exceptional instances where they specifically request to be able to receive inbound calls at the Property or it's a method you wish to use to contact them.
 - 8.15.3 should you wish to connect equipment to Our network other than via a BT main phone socket you shall first seek Our written consent to do so; and
 - 8.15.4 in no event will you connect equipment to Our network that:
 - 8.15.4.1 does not bear the European Consumer Equipment Standards 'CE' mark; or
 - 8.15.4.2 may harm the network or other customer's equipment.

9. EXTENT OF OUR OBLIGATIONS

- 9.1 If the performance of any of Our obligations under the Contract is prevented or delayed by any act or omission by you or your failure to perform any relevant obligation (**Customer Default**):
- 9.1.1 We shall without limiting Our other rights or remedies have the right to suspend performance of the Services until you remedy the Customer Default, and to rely on the Customer Default to relieve Us from the performance of any of Our obligations to the extent the Customer Default prevents or delays the Our performance of any of Our obligations;
 - 9.1.2 We shall not be liable for any costs or losses sustained or incurred by you arising directly or indirectly from Our failure or delay to perform any of Our obligations as set out in these Conditions; and
 - 9.1.3 you shall reimburse Us on written demand for any costs or losses sustained or incurred by Us arising directly or indirectly from the Customer Default.
- 9.2 Depending on which company is the existing broadband supplier for a Property, there may be a temporary loss of broadband Services while the transfer takes place such delay being beyond Our control and we shall not be liable in such event.
- 9.3 We will not be liable for any loss of data stored on yours or a Tenant's computer as a result of the installation process. It is the tenant's responsibility to ensure that all files and data are sufficiently backed-up and your responsibility to ensure that they are aware of this and that they read and sign the Tenancy Internet Policy that we provide for your tenancy agreement or licence.
- 9.4 You hereby acknowledge that the speed and stability of the Services are determined by the characteristics of the phone line at a Property including its physical length, quality and susceptibility to interference from other communication lines along with the distance from the exchange and number of users. We shall not nor can we except any liability for any problems with the Services caused as a result of any of these factors.
- 9.5 We will not be liable for Wi-Fi deadzones or slow speeds where the Landlord has not installed the package or purchased the additional Wi-Fi Equipment we have recommend for the size/structure of the Property and number of users.

9.6 Please be aware that broadband speed will take ten (10) days from the point of activation to stabilise – this is standard industry process.

10. CHARGES AND PAYMENT

10.1 The Charges for the Services shall be as detailed and charged in accordance with your order for Standard charges and those set out in the Schedule hereto for Variable Charges. The Variable Charges relate to scenarios where work from a BT Group Engineer is required and there is an issue with the visit (as specified in the Variable Charge Tables) or instances where you have specifically requested work that requires a BT Group Engineer. As per section 7, certain Variable Charges will be exempt if we are commissioned to undertake a Professional Wi-Fi Installation on the Property.

Some of these charges are in the above table. Examples of the types of charges are below:

- a) An engineer attends an incorrect address as provided by you;

- b) The site for installation does not meet the minimum requirements as agreed during the product registration;
- c) An engineer arrives to carry out the installation at the address provided by you, but you no longer want the installation completed;
- d) Entry is refused to the Property, or access cannot be gained, at the appointed time, as agreed between you and Us
- e) Full access has not been made available to all areas of the building e.g. communal areas, basements, security gates, alleyways, yards where BT equipment such as Distribution Points may be positioned;
- f) If the building has been renovated or it's a new construction, you are responsible for ensuring that the Distribution point and BT Equipment are intact ready for a new phone line installation.
- g) You report a fault, an engineer attends a Property, and discovers the fault is not the result of the Services;
- h) Your reported problem, following your request for an engineering visit, cannot be confirmed; and

If the charges are passed through by either BT Wholesale or Openreach and We believe that they are unreasonable, we may dispute them on your behalf before passing on the charge. We may ask for evidence or a statement to support with this. If we believe that there aren't sufficient grounds to dispute the charge or the charge is upheld, we will pass on the charge but will continue to pursue the dispute if we feel that the customer has grounds and involve industry bodies where we feel that it will help. If the charge is subsequently removed then we will refund you in full. Please note that Openreach & BT Wholesale can raise charges up to 12 months after the chargeable activity has taken place.
